POLYPHOSPHATES MIX WITH STABILISING PROPERTIES

PHYSICAL DATA

Appearance: Clear colourless liquid
pH: 8.5 - 9.5
Odour: None

DESCRIPTION

UNIservice POTABLE WATER STABILISER is a solution of polyphosphates, quickly and easily dispersible in water.

- Prevents "Red Water" in ships potable water systems.
- Provides scale and corrosion control in condensers, heaters, coolers, tanks, flash evaporators and other marine equipment.
- Controls corrosion in pipelines and other equipment handling softened or evaporated water.
- Supplied in convenient to use liquid form.
- Effective at temperatures up to 80°C.
- Increase system life and reduces maintenance costs.

PRODUCT USE

UNIservice POTABLE WATER STABILISER is a combination of polyphosphates having stabilising properties. The product effectively and economically provides scale and corrosion control in potable water and other shipboard once-through water systems. UNIservice POTABLE WATER STABILISER is carefully blended to utilise the best properties of each ingredient, UNIservice POTABLE WATER STABILISER can be used in potable water. It meets the requirements of the U.S. Public health Service and the U.K. Department of Trade and Industry.

APPLICATION, DOSAGE AND CONTROL

Dosage varies between 15-40 mg/l for ordinary water treatment (approximately 0.3-0.8 litre/25 tonnes of water). Dosage may be greater for other applications. Specific recommendations can be obtained from your UNIservice representative. UNIservice POTABLE WATER STABILISER is non-corrosive to ordinary metals used in feeding equipment and may be fed with a simple by-pass feeder, available through your UNIservice representative. The treatment should be proportioned to maintain the desired dosage.

PACKAGING, HANDLING, FIRST AID AND STORAGE

UNIservice POTABLE WATER STABILISER is normally supplied in drums containing 25 litre (approximately 30,8 kg.). Storage temperature should not exceed 40°C.

UNIservice POTABLE WATER STABILISER is mildly alkaline and may cause skin irritation on prolonged contact with skin. In case of contact wash skin with plenty of water. If eyes are affected, give immediate washing with clean running water for at least 15 minutes and obtain medical attention. If a portion of the liquid or its strong solution is swallowed give plenty of water or bland fluids e.g. milk and call a doctor.

Warning: Do not give an unconscious person anything to drink.

Safety Data Sheet

1. Identification of the substance / preparation and the Company

1.1 Identification of the substance or preparation

Product name POTABLE WATER STABILISER - PWT

1.2 Use of the substance / preparation

Intended use Prevents "red water" in ships potable water systems.

1.3 Company identification

Name Urruty gg Niego S.r.l.
Full address Via al Santuario di N.S. Guardia 58 a
District and Country 16162 Genova Bolzaneto (GE)
Italia
Tel. + 39 010 711395
Fax + 39 010 713120
e-mail address of the
competent person responsible
for the Safety Data Sheet info@uniservicemarine.com

1.4 Emergency telephone

For urgent inquiries refer to First Aid Information: Centro Antiveleni Milano
- Niguarda
Phone: 02 - 66101029 (specialized in chemical
products poisoning).

POTABLE WATER STABILIZER

Rev.
006

2. Hazards Identification

This product is not dangerous under 67/548/EEC and 1999/45/EC directives and subsequent amendments.

3. Composition / Information on ingredients

The product is not classified as hazardous pursuant to directives 67/548/EEC and 1999/45/EC and subsequent amendments and upgrades and does not contain substances classified as being hazardous to human health or the environment pursuant to 67/548/EEC and subsequent amendments.

4. First aid measures

No episodes of damage to health ascribable to the product have been reported. Nevertheless, observance of good industrial hygiene is recommended.

5. Fire-fighting measures

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SUITABLE EXTINGUISHING MEDIA

The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulised water.

EXTINGUISHING MEDIA WHICH SHALL NOT BE USED FOR SAFETY REASONS

None in particular.

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc).

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and dielectric), a depressurised mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of fume.

POTABLE WATER STABILIZER

Rev.
006

6. Accidental release measures

PERSONAL PRECAUTIONS

Use breathing equipment if fumes or powders are released into the air.

ENVIRONMENTAL PRECAUTIONS

The product must not penetrate the sewers, surface water, ground water and neighbouring areas.

METHODS FOR CLEANING UP

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

7. Handling and storage

Make sure that equipment is available for cooling the vessels, to prevent the danger of overpressure and overheating in the event of fire in the vicinity. Refer to the other sections of this data sheet for information relating to health and environmental risks.

8. Exposure control / personal protection.

8.1 Exposure limit values

Not available

8.2 Exposure controls

Observance of safety measures used in handling chemical substances.

RESPIRATORY PROTECTION

None required.

EYE PROTECTION

None required.

HAND PROTECTION

None required.

SKIN PROTECTION

None required.

POTABLE WATER STABILIZER

9. Physical and chemical properties

Colour	Not available
Odour	odour less
Appearance	liquid
Solubility	soluble
Vapour density	Not available
Evaporation speed	Not available
Comburent properties	Not available
Partition coefficient: n-octanol/water	Not available
pH	9
Boiling point	100°C
Melting point	-1°C
Flash point	Not available
Explosive properties	Not available
Vapour pressure	2000kPa
Specific gravity	0,953Kg/l

10. Stability and reactivity

The product is stable in normal conditions of use and storage. In the event of thermal decomposition or fire, vapours potentially dangerous to health may be released.

11. Toxicological information

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good industrial practices.

12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

POTABLE WATER STABILIZER

Rev.
006

13. Disposal consideration

Reuse, when possible. Neat product residues should be considered special non-hazardous waste.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

14. Transport information

This product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

15. Regulatory information

Warning symbols: None

Hazard sentences (R): None

Caution recommendations (S): None

This product is not subject to hazard labelling under the 67/548/EEC and 1999/45/EC directives and following amendments and adjustments.
